SUMMARY

I'm Shivani Ganji, a passionate Computer Science student driven by curiosity and innovation, aiming to build impactful web solutions that shape the digital world.

As an aspiring Web Developer, I build things for the web using HTML, CSS, JavaScript, and Python. I'm passionate about clean code, great design, and continuous learning.. For details, [click here](#).

WORK EXPERIENCE

Intern at Nirmaan Organization Jan 2026 - present

Web Applications and Software Testing.
Learning web development fundamentals and built basic web applications.
Practicing manual testing, test case writing, and bug tracking.

PROJECTS

Some Project [Link to Demo](#)

AI Intelligent Handwriting to Excel Converter
Developed a web application that converts handwritten or printed tables from images and PDFs into editable Excel and CSV files using AI (Google Gemini 2.5 Flash). Implemented image/PDF upload, table detection, and structured data extraction. Generated downloadable Excel (.xlsx) and CSV outputs automatically. Designed a simple, responsive UI for easy file upload and conversion. Improved data accuracy and reduced manual data entry effort. Technologies Used: HTML5, Tailwind CSS, JavaScript, Python, AI API

EDUCATION

2022 - 2026	Bachelor's of Technology at Visvesvaraya College of Engineering and Technology (GPA:7.8/10)	
2022	Intermediate at Sri Nri junior college	(9.68/10)
2020	SSC at Nalanda grammar high school	(A)

CERTIFICATIONS

2025 **AI/ML Engineer Certification — PMKVY Skill India**
Machine Learning, Deep Learning, Natural Language Processing, Model Training, and AI Applications.

SKILLS

Web Technologies	HTML,CSS,JavaScript.
Programming	Python Basics.
Tools and Platforms	Git,GitHub,VS Code,Excel.
